

The Segway Alternative...

Rolling around Lefkosia

For those who haven't yet discovered this innovative means of transportation, Segways are two-wheeled, self-balancing personal transporters. Faster than walking, more relaxing than cycling, the Segway still allows you to stop and look wherever you please. Rated on Tripadvisor.com as the Number One thing to do in Lefkosia, this green and gliding experience might be slightly challenging during the first few minutes. But once you learn the few small tricks that give you full control of your wheels, you will be ready to take off and explore...

Alternatively, join the organized Segway tour that includes training, a coffee break, and digital photos. En route you will stop at the most prominent landmarks of the Old Town, including among many others, the famous Hadjigeorgakis Kornesios Mansion, Chrysalliniotissa Church, Famagusta Gate, the Liberty Monument, the Archbishop's Palace and St. John's cathedral, the Municipal market, Phaneromeni Church as well as Ledra Street and the border crossing.
